

# Undergrad Conference

May 4<sup>th</sup>, 2007

---

A day for student research.

## **What type of project can I present?**

Scientific research projects, photo-journalism, economic analysis, poetry, short-stories – if it's interesting and engaging, we'd like to see it! Past presentations have included essay presentations, as well as poster presentations.

## **What should the proposals look like?**

Ideally, proposals will include a one-page synopsis of your project along with an annotated bibliography of your five (5) best resources.

## **When are they due?**

Proposals must be submitted by April 6<sup>th</sup>, 2007. They may be emailed to Cynthia Posada at [posada@simmons.edu](mailto:posada@simmons.edu) or dropped off in the Academic Support Center in P-304.

## **Where will the panel discussions and poster presentations take place?**

Depending on the amount of presenters, the Undergrad Conference will be held on campus in either the Linda K. Paresky Conference Center, Java City, or several large classrooms. All spaces are tentative.

## **Simmons College**
