

Our doors are open for the Newbury College community.

Simmons University helps students find their passion and build successful careers through an education that combines liberal arts with professional preparation. We offer more than 60 undergraduate majors and minors, as well as accelerated degrees and graduate programs. 100% of our students complete internships, clinicals, independent research or field work, leading to 91% of graduates finding employment or enrolling in grad school within six months of graduation.

As the only women's-centered university in Boston, we have been a beacon of leadership for more than 100 years. We empower women who are intellectually curious, ambitious, and socially conscious to become leaders in their careers and their communities. Choosing Simmons means you'll get the best of both worlds: a small college feel with big university benefits.

Applying to Simmons University means:

- No application fee
- Generous transfer credit policy
- Only one recommendation letter required
- Students with a 3.0 GPA or higher who are in good academic standing will be admitted
- Scholarship matching up to \$20,000; additional need-based financial aid available
- Expedited admission decisions will be made within a few business days of when the application becomes complete (unless you are applying for Nursing)
- Test scores are waived for students who have, or will have, 32 college credits by the end of the Spring 2019 semester (unless you are applying for Nursing)
- Individual meetings or calls for students interested in speaking with a Simmons student or faculty member as well as additional support, including advising and orientation
- Transfer student housing available in the Fall
