**Maura Evans**

*Senior Vice President, IT Architecture*
State Street Corporation

Maura Evans is Senior Vice President of IT Architecture at State Street Corporation.  She has 25+ years working in Information Technology and Financial Services companies.  During her career she has held a wide variety of Information Technology positions, from application development to managing large scale infrastructure operations to developing IT Strategy and Architecture.   During this time she has always been on the leading edge of technology adoption, from leveraging Internet  based technologies in the 1990's to developing IT global operations in the 2000's to today, where  she plays a leadership role in State Streets Technology Transformation Program.

Maura gained her BSC in Computer Science and Mathematics from University Technology Dublin, Ireland.
