Simmons University / Request for Accessible Housing Accommodations

Accessible Housing Accommodations are provided on a case-by-case basis due to documented disabilities. To qualify as a disability covered under the Americans with Disabilities Act (ADA), the student must have a current condition that substantially limits a major life activity, and the accommodation requested must be deemed reasonable and appropriate. A diagnosis, in and of itself, does not automatically qualify the student for the requested accommodations. All criteria listed on the Treating Practitioner’s Verification of Disability/Illness form must be met.

am requesting housing accommodations for the:

  ___ Fall Semester ___ Spring Semester ___ Winter Intersession ___ Summer  in the YEAR: 20___

--------------------------------

• Please check the housing Accessibility Accommodation(s) you are requesting for the time period specified above.

• In order for your request to be considered, you must complete and submit this form and the Treating Practitioner’s Verification of Disability/Illness Related to Request for Accessible Housing Accommodations form.

• These completed forms must be signed and submitted through OAS’s secure file transfer link (https://filetransfer.simmons.edu/form/OAS) for processing. All requests are reviewed on a regular basis.

• The housing assignment you will be offered will be in accordance with your class rank and your total earned academic credits.

• Communication regarding your housing assignment will occur sometime within the regular assignment notification period: Returning students participating in the Housing Selection process will be informed after the Continued Occupancy (CO) process, but before the general housing lottery. New incoming freshmen and transfer students entering in Fall will learn of their specific housing assignment no later than the 1st week of August, while newly admitted students entering in the spring semester will be notified in early January.

• ESA requests fall under the Fair Housing Act (FHA) and not the ADA, as they are generated by a student’s request to waive a University’s “no animals” policies. As such, ESA requests and authorizations are not “accommodations” as established by the ADA.
