Student Signature & Date: _____

Excel Faculty* Signature & Date: _____

* If you update your 3D course selections after your Excel course has ended, please complete this form again and have your ADVISOR approve it instead of your Excel instructor.

3-D REQUIREMENT POLICIES

- 3D courses must be drawn from three different disciplines.
- Each 3D course may fulfill a KCA, language requirement, or Learning Community, but the Boston course or Leadership Course will not be accepted.
- One 3D course may count in each major/minor/program of study.
- One 3D course may have been taken during the first or second year. However, students in 3+1, 3+2, or accelerated programs may use two classes taken during the first or second year.
- One course may be transfer credit.
- Students may take courses in their 3D cluster as pass/fail classes.
- Courses may be taken through the Colleges of the Fenway or through study abroad.
- Honors students must take two of their three chosen 3D courses at the 200 level. Also, because Honors students take their Boston course as a Learning Community, they can use one of those courses as their class from their first or second year.

Please return this form with all approvals to the Registrar’s Office, C-115, MCB
or by email to registrar@simmons.edu.
