

Campus Hazing Transparency Report

Simmons University is committed to providing a safe and supportive environment for our students to participate in Simmons-sponsored academic, athletic, and curricular activities. Simmons' [Anti-Hazing Policy](#) prohibits hazing on and in Simmons' property and online spaces, and at off-campus Simmons-sponsored events.

This Campus Hazing Transparency Report ("Report") summarizes findings concerning any student organization, as defined by the Campus Stop Hazing Act, found to be in violation of Simmons' standards of conduct relating to hazing. The Report does not include reports of hazing that did not result in a finding of responsibility.

The University will update the Report two times per year. Annual statistics on hazing will be available on the [University's Clery Report/Fire Safety Report webpage](#), in the University's Clery Report for 2025/Annual Public Safety Report and each subsequent Clery Report/Annual Public Safety Report.

December 2025 Report (July 1, 2025 – December 18, 2025)

No findings due to there being no relevant reports.
